PROFESSIONAL  
EXPERIENCE

**World Bank**

*Consultant*

August 2016 to present

Drafted chapters to be included in a forthcoming World Bank manual on monitoring and evaluation in fragile state contexts. Solo-authored chapters include: Randomized controlled trials; Combining qualitative and quantitative approaches; and Monitoring and audit methods.

**USAID Democracy, Human Rights, and Governance**

Contracted by NORC

*Impact Evaluation Specialist*

February 2015 to present

Assessed governance programs for impact evaluation potential. Led project teams at workshops to expand the use of randomized controlled trial methodology in policy settings; taught impact evaluation design techniques to program officers. Assisted in the design and implementation of an impact evaluation in conjunction with a large-scale local governance initiative in the West Bank (ongoing).

**RAND Corporation, Washington, DC**

*Adjunct Researcher*

August 2013 to June 2015

*Research Associate*

June 2011 to August 2013

Designed and implemented research project protocols. Drafted summary reports and conducted client presentations. Conducted policy-relevant research and analysis on a variety of current policy topics, including: political developments in the Middle East, cyber security, US military budget planning, and efforts to increase Internet freedoms internationally. Employed quantitative analysis, including statistical testing, on large-scale data sets in order to assess patterns relevant to policy considerations.

**Project on Middle East Democracy, Washington, DC**

*Research Assistant*

January to June 2011

Helped to plan and produce a series of policy briefs on relevant topics across the broader Middle East. Researched subjects for articles and edited pieces for content and grammar. Regularly consulted news sources in English and Arabic.

	<b>Arabic and Middle Eastern Electronic Library, Yale University</b> <i>Digitization Specialist</i> May 2006 to May 2009 Worked as part of a strategic team to develop a searchable database of electronic Arabic texts. Assessed the effectiveness of Arabic Optical Character Recognition programs to improve performance and increase accuracy.
